Inside and outside prisons, Raza are catching hell from white-settler vigilantes, the various police agencies, and the so-called criminal justice system!

Through brutality, fascist-racist laws (such as in Arizona), irrelevant "colonial" education, and the locking up of our youth –we see how schools, police, courts, and prisons are being utilized to destroy our capacity to unite and defend ourselves!

Moreover, as the current economic crisis of the racist U.S. imperialist system continues and the rich use Raza as scapegoats for the disastrous conditions they themselves created –the vicious attacks against the Mexican-Indigenous community will only get worst!

To find solutions to this current situation will be central to the discussions and presentations that will take place at the CMPP's Conference On Raza Prisoners And Colonialism!

JOIN US AS WE STRUGGLE TO END THE MASS IMPRISONMENT OF MEXICANOS-RAZA AND OTHER OPPRESSED NATIONS AND COMMUNITIES!
